Explore the basics of acting, which is always the starting point and at the heart of even the most accomplished actor’s craft.---- Following a fun and creative path from the freedom of "play" (improvisation, theatre games) to more advanced acting exercises (based on the work of Strasberg, Meisner and Stanislavsky) and a strong focus on detailed scene work from published plays. Through a series of theatre games, improvisation, and scene study, and an active examination of basic technique, the student actor is led to a place of knowing themselves and trusting their own impulses and instincts.
